

ANNOUNCING THE 2019 NTH DIMENSIONS SUMMER INTERNSHIP PROGRAMS:

**Orthopaedic Surgery
Radiology
Physical Therapy (Undergraduate Juniors and Seniors Only)**

MAKE THE CHOICE that defines your future

Apply for the 14th Annual Nth Dimensions Summer Internship Program in partnership with Zimmer Biomet, American Academy of Orthopaedic Surgeons (AAOS), OrthoCarolina and American College of Radiology (ACR). All students are encouraged to apply for their specific program, especially designed for first year minority students, including those enrolled in the AAOS, J. Robert Gladden, or Ruth Jackson Orthopaedic Society mentoring program.

Summer interns work side by side with experienced orthopaedic surgeon preceptors, radiologists and physical therapists in a challenging academic or private practice environment. Students prepare and defend poster presentations at the National Medical Association (NMA) Annual Convention and attend elements of the AAOS Annual Meeting the following spring.

Turn your career aspirations INTO REALITY!

The Nth Dimensions Summer Internship Program offers a unique opportunity to gain valuable first-hand clinical and research experience at a critical time in your medical school career.

For more information or to apply online, visit WWW.NTHDIMENSIONS.ORG

*"Nth Dimensions has changed my life. My confidence is through the roof and I can see myself doing what my preceptor does. Before it felt more like a dream than an achievable goal."
- Sydney Singletery, Class of 2018*

*"This experience has been more than just fulfilling requirements to become an orthopedic surgeon, but to enhance interpersonal skills, humanistic traits, compassion, accountability and grit."
- Fred Wilson, Class of 2018*
